

Creflo & Taffi Dollar

Photography by Ernest Washington

Leading more than 20,000 parishioners keeps Dr. Creflo Dollar on the go. Add to that, the founder of World Changers Ministries (WCM) of College Park, GA, reaches nearly a billion people a day through his award-winning show, "Changing Your World." The author, speaker, teacher and publisher also oversees ministries and staff members of his global organization, which includes

World Changers Church International.

As executive director of WCM, CEO of Arrow Records, the ministry's recording company, and leader of the Women's Fellowship, Taffi Dollar works alongside her husband in many capacities. "I'm pretty flexible. It may be preaching, it may be conducting business meetings, it may be traveling—just whatever," explains Taffi, the mother of the couple's five children, who often teaches on family and parenting topics. As a minister's wife, she hopes she helps others "understand God's will and purpose for their life and to see themselves fitting within God's overall picture," she says.

Dollar says his wife, Taffi, is vital to his ministry for many reasons. "She's the balance in my life," he says. "She's not only the balance, but a lot of times when there are strong decisions that need to be made, when she and I get together, it really helps us to get the mind of God on certain things. Besides her being the love of my life, the balance of my life, the friend in my life, I don't want to live without her." □
